

**Description**

**A. Description of overall philosophy (200 word limit):**

The overall philosophy is that students with exceptionalities are entitled to the support necessary from all stakeholders in order to maximize their potential. The mission of InspireNOLA Schools is to transform and inspire an educational movement. Within the context of this mission, Exceptional Student Services Department ensures all educators maximize instruction and set high expectations for all students with an exceptionality. Thus, this reflects the whole child in order to promote meaningful college and career preparation for post-secondary pursuits. We are in compliance with federal and state laws regarding the education of students with disabilities as well as those who are identified as Gifted and/or Talented. In addition to, the academic, behavioral and enrichment services provided to students, related services are implemented to the fullest based on minutes reflected from scholars' Individualized Education Programs. All services reflect procedures that are substantiated with scientific based researched practices for classroom instruction. To assure that we properly identify students whom we suspect of having a disability and/or given documents to support the disability, our Pupil Appraisal Team follows the regulations outlined by the Louisiana Department of Education adherence to specific regulations in Bulletin 1508. Thereafter, all students identified are provided with a Free and Appropriate Public Education.

School-based Supports (in-school)			
	<b>Supports within Inclusion</b>	<b>Supports within Resource</b>	<b>Supports in Self-Contained</b>
<b>PK-5</b>	Instructional support is provided by a special education teacher in the general education setting to the scholar and/or consult to the general education teacher relevant to the scholar's progress or lack of. Students are not 'pulled out' of a general education setting, but remain in the general education classroom with supports provided in that setting.	Within the context of the Resource Model, students are in a designated classroom in the school where students with disabilities are scheduled for a class period to work on specific skill deficits with a special education teacher and additional support from a paraprofessional if deemed necessary.	The teacher must ensure that the curriculum is appropriate to the student and will focus on skills the student needs to be successful in school. The teacher must begin with a thorough assessment of the student in order to know where to begin new teaching and then later to determine how much progress was made through progress monitoring. Instruction does reflect the general education curriculum.

<p><b>Description of Extended School Year Services</b></p>	<p>Identification: According to the LDOE, there are several criteria used to determine a student’s eligibility for Extended School Year Services. During the screening process, the instructional team will review data collected all year on IEP goals and objectives, if written, to determine if the student is eligible for ESYS. Parents must be notified, in writing, of the ESYS decision.</p> <p>Delivery: ESYS services are delivered within the context of a three-week program during the summer months. Instruction is delivered on those goals and objectives that were identified by the student’s special education teacher on the IEP itself. Materials are made available to certified teachers and paraprofessionals to address said goals and objectives. Progress monitoring takes place during this time to ensure adequate progress is being made and to adjust implementation of instruction where it is deemed necessary. The student’s performance is summarized and shared with teacher of record for the incoming school year.</p>
<p><b>Description of Specialized Programs</b></p>	<p><b>Criteria for participation:</b></p> <p>Community Based Instruction (CBI) Programs support students in grades K- 12<sup>th</sup> (or until 21<sup>st</sup> birthday) who have demonstrated through an academic assessments and other indicators that meet the criteria to participate in LEAP Alternate Assessment. The programs seeks to prepare students to function at a high level in less restrictive settings and to provide opportunities while also offering on-level remedial instruction that would be difficult to adequately provide in a general education or resource setting. This setting offers vocational training through in class workshops setting simulation and school based jobs, such as running the school store.</p> <p><b>Delivery:</b></p> <p>CBI is a set of substantially separate (self- contained) classrooms taught by special education teachers, supported by paraprofessionals and clinical providers as directed by the IEP.</p>
<p><b>Community-based Supports (out-of-school)</b></p>	
<p><b>Key Partnerships</b></p>	<p><b>Partners: Lighthouse for the Blind</b> – Provides educational support to scholars and give consultation and guidance to all stakeholders.</p> <p><b>Services provided:</b> Behavior Modification; supported employment experience for disabled students; Tutoring students to prepare them for college.</p>
<p><b>Other Out-of-school instructions &amp; supports (e.g., special school, therapeutic placement, hospital or homebound setting, juvenile detention facility, etc.)</b></p>	<p>After school tutoring is provided for scholars who are in need of additional academic support in order to be successful during the school day.</p> <p>Hospital/Homebound services are provided with referral and written approval from scholar’s physician or licensed psychologist. Scholars are supported by Homebound Instructional Teacher and related service personnel if IEP deemed necessary.</p>
